SPECIAL ACKNOWLEDGEMENTS:

I ESPECIALLY WISH TO THANK the founders of our Stage One programs; Suzanne Kincaid, Greg Percifield, and Ginny Dye for their outstanding work in combining their visions with practical means for everyday people to bring their own visions and dreams into reality. To help us all to make a difference in our own ways... one vision at a time, so that as Ginny says, "*Together We Can Change The World*"...

Thanks also to Dan J Blackburn for kind permission to use his PDF Power Brander free of charge to make this book rebrandable with your name and links. Get your own [FREE PDF Power Brander](#) by clicking on this link.

WARNING:

THIS BOOK CONTAINS

**A Modern Investment Strategy of Such Stunning
Simplicity That Your Financial Adviser Will NEVER
Tell You About It
~ Because They Simply DON'T KNOW It!**

*[Workers and business people please note: **This book is not for you** unless you also wish to generate money you don't have to work for. It is about an **investment strategy** that requires money, not work, and is intended for those without the time, skills, or inclination to do even more work than they already do. In short, it is designed to **put your money to work for you**, so you don't have to.]*

[DISCLAIMER: We care, but it's **your responsibility**. Money Buddy Alliance offers an investment Strategy and despite the guaranteed accuracy of the mathematical equations herein, no actual dollar amounts of earnings are guaranteed. You may get less or more than the examples we cite.

As with any other investment options, the products and services offered by the companies we recommend vary, and may change from time to time. Even though risk is minimal (and under your control), you should still explore these with the same diligence as you would any company in which you are considering making an investment.

We do not give professional advice. If you need professional advice before making your decision to utilize the Money Buddy Alliance strategy, please go ahead and consult with a practicing professional whom you know and/or trust for this advice].

A New Definition

PASSIVE RESIDUAL INCOME, anyone? Bah... Humbug! Make mine a **DYNAMIC RECURRING INCOME**, thanks

Ever stopped to think about what some of the everyday phrases that are bandied about all over the place really mean?

For instance - exactly what IS a "passive" and/or "residual" income?

The dictionary defines "passive" this way...

- lacking in energy or will, lethargic
- not active, not operating, inert
- receiving or enduring without resistance, submissive

And "residual" is described this way...

- what is left at the end of a process, leftover, dregs
- leaving a residue that remains effective for some time, e.g. residual pesticide

Well, if that's what a Passive Residual income means, no thanks. I don't want to allow my income to wallow in such a miserable state. Inert, submissive - toxic - dregs and leftovers, indeed!

Here's how the same Dictionary defines "dynamic"...

- of or relating to **physical force or energy**
- marked by usually **continuous and productive** activity
- **energetic**, forceful

And "recurring"...

- to **occur again** after an interval
- occurring **time after time**

Yup. Especially when it comes to the cash returns from my online investments... make mine a **DYNAMIC RECURRING INCOME** every time!

What's It All About?

MONEY BUDDY ALLIANCE (MBA) is a FREE online networking service that does the "work," of building the network for you, allowing you to simply be an Investor; leaving your time and energy free, so you can get on with all the other stuff going on in your life.

There are literally thousands of home business opportunities available online today, many of them truly excellent. While they can offer tremendous potential for anyone to create financial freedom for themselves through diligent effort; they also have one *UNDESIRABLE* thing in common...

They all require YOU to work them. They demand YOUR time and YOUR effort, as well as a small portion of your money.

MBA saw a huge gap. One that few, if any, services were filling. We identified this gap as a "network building service" for those people who can see the incredible income potential of these online networks; yet do not have the time, or the energy, or the skills, ...or even the inclination... to start up their own self-employed, work from home, business.

We saw a need for someone to step up and say "Hey, **I'll build** the network, if **you'll invest** with me." So MBA was born. Such a delightfully simple solution.

"E" Employee	"B" Business Owner
"S" Self-Employed	"I" Investor

Using Robert Kiyosaki's Cash Flow Quadrant diagram (above); Money Buddy Alliance offers the "B" business of providing the network building service, allowing you to be the "I" investor (see "*Recommended Reading*" on page 30).

And here are some of the other really "neat" things we do. We research the companies, the ethics, the opportunities, the networks, the returns on your investments, and more... Then, we hand pick the **best of the best** and offer them to you, saving you a huge amount of trial and error, cash, time, and a mountain of hack work going through them all.

We compile the selected programs into various Stages of portfolio development and then offer them to you.

And here's what else happens - your subscription payments - *yes, the \$1 a day that's going to turn your fortunes around* - is not paid to us... it is paid direct to **your own account** with each of the specific companies in whatever Stage of the program you are at.

We never touch a cent of your money; we don't need to. That always remains 100% in your control, and rightly so. We make our money **the exact same way** you do - through our investments.

Where Do We Go From Here?

STAGE ONE OF THE Money Buddy Alliance Strategy, as detailed in this book, is freely available to anyone, anywhere, anytime.

You do not have to be a member to use our links, **secure your place in the MBA line of succession**, and reap full benefit from this Alliance, with no strings attached (See page 24).

Use it or not, it is totally your choice. In case you haven't noticed, or have forgotten; we did not even ask for your name, email address, or any other personal information before you received this book. It is part of our mission to enrich and empower every person on the planet, as far as we are able.

When you **pass this book on**, you assist us in this endeavor.

Part of our proceeds goes to assist the efforts of a number of "doers of good deeds" to make the planet a better place...

Visit <http://empoweredfundraising.blogspot.com>

Tactics

THE MONEY BUDDY ALLIANCE team has developed a series of Basic, Advanced, Business, and PT Tactics to ensure that this and other Strategies are effective for your desired results, and lead to fulfilment of the matrices utilized by the companies we recommend.

Many of the businesses we recommend actually offer **more than one income stream**. Yet these additional incomes are not even mentioned in this book. Nor are they included in the profit calculations; for the simple reason that they are variable, and therefore, not predictable.

What this means, of course, is that you will get some "surprise" unexpected incomes as you go. This book is a basic, orientation document, and for this reason, they are not discussed here.

Because **we take care** of adding new investors to the matrix, placing them strictly according to the order of commencement, **everyone is included**, no one is left behind, and YOUR matrix grows; inexorably, *relentlessly*, till it brings maximum profits. It's just a matter of time.

Investing Made Safe, Quick and Easy

"Investors make money with money. They do not have to work, because their money is working for them."

Robert Kiyosaki, *Cash Flow Quadrant*

EVER HAD THE FEELING that there's too much work and not enough pay in your life? That it's time your money started working for you, rather than the other way around?

Then it's time for you to become **an investor!** Not just any old run-of-the-mill investor. Oh no! A smart investor, using modern techniques and investment vehicles, which bear little resemblance to the high capital, high risk, low performance vehicles of the past.

Quite simply, traditional investment vehicles are way out of date!

Why ride in a horse and buggy on such an important journey, when even the most modest little modern car will get you there so much more speedily, comfortably and efficiently?

Here's the thing: When investing in shares, venture capital, limited partnerships, and so on in the traditional way of investing, you are advancing some of your hard earned money to a company in the "hope" that they will use it in such a way as to turn a profit; in return for which (*if they succeed*), they offer to pass some of that profit on to you.

The Investment Strategy adopted by Money Buddy Alliance is about as widely divergent from that out of date concept as you can get. And here's why...

Instead of investing money in a company *before* they make an unknown, unsure, hoped-for future profit; **we use the DEFINITE**

principle of profit-share from actual business volume already achieved, with known, fixed rates of return *after* they've made a profit. There's a world of difference in that.

- **We KNOW there is a profit in which to share**
- **We KNOW the amount of that profit-share**

Contrary to popular misconception, it need not take a lot of money up front to start generating some pretty significant returns, as you are about to discover. You could get started for well under a hundred dollars, any time you want.

This book is the first in our series on the Money Buddy system of wealth creation and is designed to be a quick guide to Stage One of the Money Buddy Alliance (MBA) wealth creation Strategies.

It is positioned as an Investment Strategy, and is primarily intended for people who want to simply invest their money and collect their growing returns; for people who have busy lives; and for those who **do not** wish to ~

- conduct a business, or
- work from home, or
- recruit other investors, or
- add to their already full workload

The **ideal user** of this strategy is one who chooses to invest a comfortably affordable sum on a regular monthly basis. This book looks at a simple plan, which runs on just a dollar a day - or \$30 per month - on a monthly subscription, to achieve a dynamic, recurring income, which will grow progressively to over \$8,500 *per month*. That's over \$100,000 per year, when this Stage is complete.

Here is a chart showing exactly how powerful the potential of the combined returns for Stage One can be. It will never cost more than \$1 a day out of your own pocket, and will very soon pay for itself. As you can see, a \$30 a month investment can return \$8,520 per month.

Level	Members Per Level	Commission Per Member	Total Per Level	TOTAL Commission
1	3	\$2.00	\$6.00	\$6.00
2	9	\$4.00	\$36.00	*\$42.00
3	27	\$2.00	\$54.00	\$96.00
4	81	\$2.00	\$162.00	\$258.00
5	243	\$4.00	\$972.00	\$1,230.00
6	729	\$10.00	\$7,290.00	\$8,520.00

***You have already passed your Break-Even point!** Your investment is now 100% self-funding. You are now entitled to become a Money Buddy Alliance Member and go to Stage Two of our investment strategy (See p. 27) or simply stay with your Stage One \$30 per month investment and enjoy your dynamic recurring income as it grows to level 6.

A major component of this strategy involves utilizing what we call a "Forced Matrix" structure of profit-sharing. And the beauty of these is that they can create guaranteed results; which are, in turn, dependent only upon *timing* for your investments to complete their growth stages.

Based on leveraged profit-sharing, it differs both *in principle* and *in practice* from traditional investment accounts, and we can clearly see it results in some *major differences* in your Return On Investment (ROI), the most notable of these being ~

- exceptionally high percentage profit-share distribution - 80%
- minimal infrastructure and management costs, all of which are fully covered from retained profits (no excuses to whittle-away your profit-share)
- the virtually non-existent risk factor (\$1 a day), which is completely under your control
- goods and/or services in return for your monthly investment; yes, you actually get genuine value for your money
- your recurring income is paid direct to your account monthly
- utilizes internet technology to create exponential growth potential not previously possible, and still ignored by traditional investment methods

"I would rather be paid for 1% of the efforts of 100 people than 100% of my own efforts." J. Paul Getty

Another way of saying this is that you are utilizing a "power leverage" plan to share in the results of over 1,000 people.

The ultimate result is a predictable, dynamic, recurring and very healthy flow of cash profits for you, the investor.

Thereafter, they continue to perform at the designated maximum return for as long as you continue to participate.

With the most basic unit of investment costing \$15 per month and yielding a \$4,260 monthly ROI when the matrix is complete, it is easy to understand that the investor retention rate is uncommonly high. Attrition is negligible, and stability is thus maintained.

For those who choose to join Money Buddy Alliance (MBA) - **membership is not available until Stage Two** - both stability and returns are substantially increased.

As with any other asset, your investment is saleable and willable.

This book is not an in-depth treatise. As it is based on elementary mathematical principles, it does not require unnecessary complications and we have eliminated these wherever possible. For a full, detailed explanation of the system, I highly recommend you read "*Financial Freedom on \$1 a Day*" by Suzanne Kincaid, who actually invented the system.

What Money Buddy Alliance does is "*apply*" the system for busy people to gain maximum benefit from minimum personal effort.

Our goal is to ***Keep It Stunningly Simple*** for you to easily understand ~

- how the basic concept works
- how to implement it
- how to ensure its long term success

We aim to provide easily applied Strategies for you to implement and follow to create financial freedom which, once established, can be easily maintained with a minimum of vigilance or effort on your part, as the investor.

Oh, and one other thing. There is no great rush, no pressure - this will not go away any time soon. What it **will** do is grow and get better with time.

Of course, the sooner you start, the sooner you reap the benefits. However, any sense of urgency to skip immediately to page 25, and open your accounts right now... is strictly coming from within you.

We acknowledge and applaud you for wanting to take instant action, but you have time to finish reading this information first! We have placed the getting started page exactly where it is because that is the time to use it.

We are here for the long haul and MBA will be ready to help you grow your personal fortune **whenever you're ready** for us.

Strategy

PUT SIMPLY, THE PRINCIPAL purpose of these Money Buddy Alliance Strategies is to completely eliminate the ***requirement to "personally" work for your money from the equation.***

We do this in two ways:

- First; we show you how to put your money to work for you.
- Second; we show you how to convert your expenses into incomes (which is just another way of making your money work for you, really).

Progressively, you will discover how to implement and utilize the carefully chosen business products we recommend purely as either "investment vehicles" or "expense converters" to gain maximum leverage, predictable results, and thus, guaranteed success for your working dollars.

This book gives you every detail of Stage One. That's right. Everything you need to know, what to do, and how to do it; to get completely set up with two investment vehicles and two expense converters; and start changing your life. Today, if you want.

Literally within an hour or so. By the end of this book, if you simply act on the steps we show you, you will be on your way to financial freedom for life. By investing only one dollar a day and strategic shopping. There is no more you have to do, if you do not wish to.

What's involved? ...Not much. All you need do is ~

1. **Join** the four plans using the exact links you find in this book under "*Get Started Here*" on page 25.
2. **Pay** the start-up fee and first month's subscription (total outlay \$60) - and your investment is set on autopilot
3. **Shop** strategically to convert as many expenses to incomes as possible - start getting paid to shop! 😊

As soon as your incomes received are equal to or greater than the \$30 monthly subscription, no further cash investment will be

required from you. A simple update of your profile to switch from your credit card to your income account, and you're done.

That's when you are ready to graduate to Stage Two, which is covered in our members' Private Lounge area. And so on progressively, up to Stage Four, if you want.

Thus, the cash payment of monthly membership subscriptions out of your own pocket is a temporary arrangement. Very soon, your recurring income will cover it. This is when you can choose to redirect the initial investment amount into your next Stage, to expand your portfolio and your profits. Simply continue adding to your portfolio as profits increase, and you will develop a sizeable income, all from just your initial investment amount of around a dollar a day.

"Money is a willing worker. It labors diligently and contentedly for the wise owner who finds profitable employment for it."

George S. Clason, *The Richest Man in Babylon*

We use profit-sharing plans based on simple mathematical formulas to predict and guarantee the results, so nothing is left to chance. **The only variable is the time it takes** to complete the system and reach your maximum profits.

Yes, but roughly how long will it take? We cannot predict that, and we don't. Matrix owners have offered challenges to complete within 90 days for additional lifetime bonuses. However, it's fair to say that I do not know of anyone who has done that. When undertaking the plan as an Investment (as we are), while it is more likely that you would be in profit within 90 days, it would take substantially longer to fully complete your Power Matrix.

This is where it's good to know the Money Buddy System's **tactical** use of the Strategy is all that is required to bring about the desired

income level that YOU want, and is not dependent upon, or affected by, the desired income levels of other investors.

Here's how a "Forced" or Power Matrix works.

The 3 x 6 Matrix growth structures our selected programs utilize is a geometric concept, which multiplies to the power of three for six generations.

So, let's say you are at the center, and when three more people decide to invest and are placed in your matrix, they will fill the imaginary line of a circle around you. That's the first generation (1x3). A bit like a ripple in water.

Then, as more people are placed in your matrix, they are "forced" out to the next "ripple" until there are nine people in that circle (3x3).

After these nine positions are filled, new members placed in the matrix are again "forced" out to the next "ripple" till all 27 (9x3) places in that circle are taken... and so on out through six "ripples" till the entire matrix is filled. (Many examples of these are explained in excellent detail in *"Financial Freedom on \$1 a Day"* see *"Recommended Reading"* on page 30).

There is no limit to the number of matrices that may be formed, or the number in which you may participate. The fact that they are so small means they are much easier to complete.

But wait; it gets better... Once a Buddy, always a Buddy. You see, the true power and strength behind the Money Buddy Alliance – what makes the Money Buddy System stand head and shoulders above the crowd – is one simple, profound, difference.

Think about this...

Once you become a member of Money Buddy Alliance, you will **always hold your place** in the Alliance. So if we find a new investment vehicle that meets our exacting criteria, and we offer it to all our Buddies... then when you and all your Buddies join, you will automatically hold your exact same positions. This is pure InVeStworks system logic, applied to an investment strategy.

Which means... once your initial investment matrix is maxed up to full profits, then **the next investment you commence will automatically be filled, or very nearly filled**, right from the word go! How? Why? Because your entire matrix will be doing the same thing at the same time!

Think of a layer cake. We are layering profits on top of profits, on top of profits, so everyone gets maximum benefit, over and over again. Then, think of having your cake and eating it too. ☺

Based primarily on the principles first expounded by Suzanne Kirkland Kincaid in her ground-breaking book “*Financial Freedom on \$1 a Day*,” the Money Buddy Alliance strategy is thus based on a tried and true system that has been working effectively for several years.

We have not changed it. What we have done is merely made a couple of simple, yet stunningly powerful, strategic twists that make The InVeStworks Model System even easier to profit from, by even more people.

Specifically, we recognize and accommodate the **one major difference between people** that makes even the incredible InVeStworks system work better for some than others.

We acknowledge that people are different; they like doing different things, even when it comes to making money - or maybe especially then!

We classify people into four separate types when it comes to making money ~

1. Not motivated by money, so not inclined to put a lot of effort into getting it - unlikely to do too much work; but always need more money
2. Motivated and willing to work, often more than one job, to get their money - often work too hard, and usually still left needing more money
3. Highly motivated and usually involved in business or entrepreneurial activities to generate their money - almost always work too hard, they can be anywhere between flat broke and rolling in it
4. Highly motivated towards having money and smart enough to realize that they can put their money to work for them and leverage the efforts of others - by putting their money to work, they rarely work too hard, yet these guys have stacks!

Money Buddy Alliance was formed to create an "alliance" between all four groups of people above, so that the simple act of **collective participation** would produce favourable results for all.

It is widely known that insurance research established many years ago that only 5% of a given population would be financially independent at retirement age. Not much has changed since then.

Similarly, the statistic for the failure rate of new business start-ups is a whopping 95% in the first five years. And network marketing and similar attempts by people to better their lives result in a soul destroying 97% failure rate.

And these results do not take into consideration the large number of people who are wise enough, dumb enough, or know themselves well enough, to never even go there. **This group** makes up around 80% of the population.

Why?...

We think a good part of the reason is that people hate selling. People HATE selling. Most people, anyway. So what makes them start in the first place?

Simple. They start because they want to better their lives. They are willing to go outside their comfort zone to do it. They catch the vision of what is possible for them, once they make it, and decide to leap into the fray, try again; and do it... this time... won't they?...

Well, guess what? **We took all the selling out** of some of the best products out there that offer a profit-share, and have provided a free "alliance" for people to reap the benefits and success that collective participation will bring, without having to sell a thing.

Don't get me wrong - some serious selling will go on. For a start, the 20% who are business and entrepreneurial types can't help themselves, they thrive on this stuff! Especially when it's this easy. Leave the "business" to these guys and us. You do the "investing" part.

This creates a win-win all around. Because **you** have a growing investment that only requires you to maintain your subscription; while the business people have the huge reward of an extra percentage of the population who are happy to be placed in the available matrix positions to fill up the gaps between the memberships they fill in their business building efforts.

True; people are all unique and wonderful beings and some will choose not to participate. This is *not* for everyone. But there will be a significant group who will be delighted to take advantage of this opportunity to access leveraged profits so easily.

It is for these people, and those wishing to build enlightened businesses, that we offer this book.

The Alliance becomes even more powerfully profitable as you begin adding diversity to your portfolio of dynamic, recurring incomes.

Two Ground Rules:

THIS IS PUT FORTH as a step-by-step process for a specific Investment Strategy, designed to produce specific *predictable* results.

Just as with a paint-by-numbers picture, where there are pictures of all colors, sizes and subjects to choose from; so too are there many alternatives to the specifics we provide in this document. However, if you want your chosen painting to come out as intended, you must paint the nominated colors in their designated places.

So it is with this specific Investment Strategy.

This is called a “no-nonsense” book for the very good reason that we have eliminated lengthy explanations, wordy justifications, and all attempts to convince.

In or out, you can, should, and ultimately *will*, decide for yourself you want to invest using this strategy, or not.

If you're in; then back yourself and be "in."

Rule #1: Just do it according to instructions; and you will get the predicted results in time.

Rule #2: See Rule #1.

"Making money is not a serious business. It is a game that you play... with yourself."

Stuart Wilde, *The Trick to Money is Having Some*

Stage One - Pocket Money:

WE CALL THIS STAGE "Pocket Money" because that is all it takes to get started - I don't care how little money you have, I bet you still spend, blow, or fritter away thirty bucks or more on things that you'll agree are a *lower priority* than investing this amount each month for as long as it takes to secure your financial freedom.

And wouldn't you rather swap your measly thirty bucks for over eight grand each month? Even if it meant you had to wait a little bit? I sure as shootin' would!

Initial Cost of Investments ~ \$60.00
(One time Start-Up Fees of \$30.00, plus \$30.00 for your first month's Subscriptions)

Thereafter ~ \$30.00 per month

Return on Investments - increasing to \$8,520 per month, on completed matrices

Payout Threshold - \$15.00 or more, paid monthly

(In the early stages, if less than \$15.00, your profits will accumulate until this threshold is reached, then paid on the first available pay cycle thereafter - direct to your account).

Time to complete matrices – variable

At a dollar per day, even if you have a low income, you can get started on the road to financial freedom.

Who's It For?

People with limited incomes ~

- you are a pensioner
- you work part time
- you are a student
- you are not well enough to work

Basically, this means you if you have limited cash to spare. You may even find your existing financial resources are already stretched to breaking point; yet you *seriously* want to create some means to get ahead. Here's a way to do so.

People with limited time freedom ~

- you are a full time employee
- you own and run a small business
- you are a full time parent or carer
- you want to boost income from your home business

Basically, this means you if you have a busy lifestyle, with limited time to spare; yet your current income is still less than you want and need to get ahead. Ideally you'd like to find a way to cut down the demands on your time, while somehow making more money.

To establish substantial and reliable separate sources of dynamic, recurring income would enable you to make the alternative lifestyle choices you'd prefer.

People who want to help others ~

- you want to give your kids a start in life
- you want to take care of your parents
- you want to assist your favourite charity
- you want to sponsor a sports team

This is a superb strategy for you to effortlessly utilise the built-in leverage to maximise the cash benefit to your chosen recipients or beneficiaries without it costing too much out of your own pocket.

People who like to start small ~

- you like the idea, yet you need to see it working first
- you are the naturally “very-cautious” type
- you like to dip your toe in the water before you dive right in

At a total cost of less than \$400 for the ***entire first year***, this is the perfect opportunity for you to prove to yourself there is little risk, and sufficient time for you to see your investment go through several stages to be somewhere between; break even, small profit, growing profit, to maximum profit of \$8,520 per month ~ that’s around \$2,000 per week, or an ROI percentage that’s totally off the scale.

A great income for many people, and a perfect stepping-stone to fund your way through the next levels, should you wish to use it that way.

Stage One Investment Vehicles

Two Virtually Unknown "Quiet Little Earners"

Music Forte

Investment of \$15 per month returns \$4,260 per month when matrix complete. This program supports independent musicians in sharing their passion and talent with the world, as well as offering extra potential incomes.

Abundant Living Legacy

Investment of \$15 per month returns \$4,260 per month when matrix complete. This program supports people in building a legacy to last long after they have gone, and whose passion it is to encourage and empower people to be all they can be.

Something for Nothing

My Power Mall

Expense conversion vehicle. Simply shop for as many of your everyday and special occasion purchases as possible from your own shopping mall and receive both discounts and cash rebates.

Solid Trust Pay

Expense conversion vehicle. This is the online payment processor preferred by Music Forte and Abundant Living Legacy. They also offer profit-sharing, so when you make your online purchases and incomes through Solid Trust Pay, you get a little something in return here as well. (This is also part of a strategic foundation plan for the more advanced Stages).

Get Started Here

THIS IS HOW EASY it is. Simply join each of the programs, in the order listed below, from these links. You will need to use your account details from the first program when you set up your preferences in the second and third.

Step 1: [Start your Solid Trust Pay expense conversion here.](#)

Step 2: [Start your Music Forte investment here.](#)

Step 3: [Start your Abundant Living Legacy investment here.](#)

Step 4: Start your My Power Mall expense conversion...

[MPM does not computer optimise placement, and your best placement is constantly changing!
Please contact Jayne Burch (or MBA direct) for **today's** best placement].

Step 5: That's it. Relax; take a break - safe in the knowledge that your place in the Line of Succession has been secured, and your new investment has started working for you already.

Wait!! Want to speed up the growth of your investment?

Tell me; **what other investment lets you, legally, take action which is deliberately and specifically designed to improve the performance of your investment?** --- They call it Insider Trading and throw you in jail if you do this with traditional investments... 😊 It's quite OK to invite your friends and colleagues to become Money Buddies too, if you want.

"If you can actually count your money, then you are not really a rich man." J Paul Getty

Summary

WHAT YOU'VE READ throughout this book boils down to one primary concept: It's all about "**your investment alliance.**"

We utilise the principles of Suzanne Kincaid's InVeStworks model, by investing in networks... and we take on the joyful role of introducing your three investment partners, your Money Buddies; so you do not have to go looking for them, unless you particularly want to.

In other words, our "business" is building the Money Buddy Alliance investment alliance; the "product" we handle is the networks in which we invest; and what we collectively "do" to make your profits is invest in these selected networks, one Stage at a time.

You'll have to admit the time and effort involved in setting up your four Stage One investment accounts, and even the cost of your investment, could hardly be less.

However, as we said previously, it may not be for you.

This is just an opportunity. Something that can be working away, quietly gaining momentum in the background, while you are busily running around, doing all the things you do.

The choice is yours.

Read this page twice.

Here's a Sneak Preview...

Stage Two - Play Money:

YOU GUESSED! WE CALL this section Play Money because this is less than you'd normally spend each month on entertainment and other trivial things that do *nothing* for your long-term financial freedom. You'll hardly miss it when you re-direct some of this cash towards the kind of income that's going to let you play like never before, and sooner than you probably think.

Initial Cost of Investments ~ \$170

Thereafter ~ \$45 per month

Return on Investments - increasing to over \$40,000 per month

Time to complete matrices – variable

At under \$2 per day, even if you don't have a minute to spare, you can rapidly accelerate your progress to financial freedom for less than the cost of your coffee at lunchtime.

Who's It For?:

People with limited time freedom ~

- you are a full time employee
- you own and run a small business
- you are a full time parent or carer
- you want to boost income from your home business

People who want to help others ~

- you want funds for a new project
- you want to create an outstanding bonus plan for your employees

- you want to supplement your retirement income provisions without it costing you an arm and a leg

People who like to make things happen ~

- you like the idea and want to get started *yesterday*
- you know what you like and make quick decisions
- you like to make things happen

At a total cost of around \$700 for the **entire first year**, this is the perfect opportunity for you to prove to yourself there is little risk, and sufficient time for you to see your investment go through several stages to be somewhere between; break even, small profit, growing profit, to over \$40,000 per month and more ~ that's around \$500,000 per year from *no extra investment of time or effort, and very little cash.*

Utilise part of these proceeds to effortlessly double or triple this income virtually instantly.

To get started at this level, you will need to become a member of Money Buddy Alliance. Ask the person who gave you this book.

Stage Three - Serious Money:

YUP, HERE'S WHERE WE get serious. We call this section Serious Money because this is what you'd have to spend for the kind of purchase you'd only make every two or three years - like to replace some large appliance, or a new TV. Instead of replacing that appliance as soon as you'd like to, you could choose to secure your financial freedom if you want to leap right in at this level.

Initial Cost of Investments ~ \$1,310

Thereafter ~ \$140 per month

Return on Investments - increasing to over \$85,000 per month.

Time to complete matrices – variable

At less than \$8 per day, you can generate an extra **million** dollars a year, or more, from this simple strategy, with very little time or effort, and not too long to begin putting you in the way of some **serious money**, although the amounts will vary.

Who's It For?:

People with an eye for making profits out of nowhere ~

- you are a natural entrepreneur
- you own and run a medium to large business
- you want a new way to monetise your client database
- you want to generate serious money for a special project
- you are an internet marketer with an active database of more than 1,000 regular, buying clients

People who want to help others ~

- you want to assist your favourite charity in a substantial way and/or set up your own philanthropic foundation

People who like to get things moving ~

- you totally "get" this and want to implement it right away
- you make quick decisions and act on your decisions
- you are in your 40s or 50s and don't have time to muck around any more
- you think big, and like to make big things happen
- you want to emulate Richard Branson buy your own island hideaway somewhere 😊

At a total cost of less than \$3,000 for the **entire first year**, this is the perfect opportunity for you to prove to yourself there is little risk, and sufficient time for you to see your investment go through several stages to be somewhere between; break even, small profit, growing profit, to over \$85,000 per month ~ that's over \$1,000,000 per year, most likely more, in time, from no extra time or effort on your part, and a negligible cash investment.

To get started at this level, you will need to become a member of Money Buddy Alliance. Ask the person who gave you this book.
